

Food Waste Audit: Count Log (Job 4)

School:	Date:	Researcher:
---------	-------	-------------

Directions:

- If school does not have a share table:
 - Your job begins when food waste audits begin
 - Stand at the front of the audit line. Help kids put trash into the trash bucket, and take their unopened items and put them in the Unopened Items bucket/container
 - At the end of each lunch period, tally how much items are left over

- If school has a share table:
 - Work with designated person to ensure you've counted all the unopened items that are placed on the share table
 - You should count ALL the items that come on the share table, even if they get taken afterward. You do not need to remove a tally or make any indication of an item if it is taken off the share table
 - At the end of each lunch period, tally how much items are left over

Lunch period	Name of unopened food item	Waste code E = Entrée F = Fruit V = Vegetable WM = White Milk FM = Flavored Milk O = Other	Number of items (tally)	Disposal method code R = Re-serve / saved S = Share table C = Composted L = Landfilled O = Other
